PANAMA READY TO REJECT U. S. WARNING NOTE

President Porras To Refer
Communication To
Assembly.

WHITE AWARD FEARED
Arms and Ammunition
Being Received By
Government.

Balboa, Panama, March 7.—President Porras, of Panama, announced that he would refer Secretary of State Hughes' warning note on the Panama-Costa Rica clash to the Panama national assembly this afternoon. The president said that he would abide by any decision reached by the national assembly. He expressed regret that Secretary Hughes made chief Justice White's territorial award the basis of mediation, pointing out that Panama had rejected the White decision seven years ago. It was understood that the national assembly would reject the American offer of mediation on the ground that the constitution of the republic recognized only the Loubet award and not the award of Chief Justice White.

Quantities of arms and ammunition are being received in Panama and the government will soon have about 500 well equipped soldiers at the Sixaola river, the scene of the disputed territory. There was no further word of hostilities but there were indications that the Panama might attack when their forces were strengthened.

President Porras said that Panama would accept any arbitration on the basis of the Loubet award but would continue to reject mediation along the lines of the White award. He suggested that the league of nations use its offices to end the dispute or that the United States and two South American powers join in bringing about an understanding between Panama and Costa Rica.

GUESTS AT HOTEL FLEE WHEN FIRE SWEEPS LAUNDRY

San Francisco, Cal., March 7.—Hundreds of guests at the fashionable St. Francis hotel were awakened early today when fire in the soap factory and laundry on the roof of the hotel caused damage amounting to probably \$750,000, and brought all the city's fire fighting apparatus to the scene.

There was no panic but the dull explosion which preceded the fire awakened nearly all and the frightened guests swarmed from their rooms in various states of night attire.

The fire was under control in about an hour.

It was learned, however, that the papers for the separation have been drawn and are about to be executed.

ARRESTED ON CHARGE OF STEALING HORSE

Frank Walden and William Brown, both colored, were arrested in Yellow Springs Saturday by Sheriff Funderburg and Deputy George Spencer, on a charge of stealing a horse belonging to Frank Helvie, of Springfield.

The horse was recovered by the authorities here where it was in the possession of Long Edwards, who had negotiated a trade with the two prisoners, for the animal. The horse was stolen Friday night, and has now been returned to its owner.

HELD AT POLICE STATION.

F. H. Young, a teacher in the Richmond, Ohio, schools, whose home is in Cedarville, was taken into custody at the Regal Hotel Sunday night and locked up on a charge of safe keeping. He is said to be suffering from a nervous disease.

SOVIET RUSSIA TOTTERING AS LOYALTY OF ITS TROOPS WAVERS

Extensive Fires Break Out In Petrograd—Artillery Used
Against Striking Workmen—Wholesale
Assassinations Are Reported.

London, March 7.—The bayonets of the red army were still upholding the authority of the Russian soviet against the anti-bolshevik insurgents, but the loyalty of the troops was reported to be wavering according to an Exchange Telegram dispatch from Helsinki today.

This dispatch quoted a Finnish courier who had just arrived from Petrograd as saying:

"Extensive fires have broken out in Petrograd. The loyalty of the soviet troops is wavering. In Moscow armored cars are patrolling the streets and are using artillery against the striking workmen."

All soviet officials at Pskoff were killed by rebels.

Cossacks under General Dutov are in the Orenburg district of the Ural mountains trying to cut off bolshevik communication with Turkestan, said a Riga dispatch to the Daily Express.

"The last food train from Siberia came through two weeks ago."

"The red garrison at Pskoff mutinied on Sunday. The red guards and workmen defeated the special communist troops that had been sent against them. They arrested and killed all the local commissaries and other bolshevik officials."

Twenty-Five Millions Owed To Great Britain by U. S.

American and British Representatives Reach Agreement On Amount Due for Transportation of U. S. Soldiers On English Vessels.

Washington, March 7.—Sir Ernest Baeburn, representing the British government and Brig. General W. D. Connor, representing the United States, have just reached an agreement as to the amount due Great Britain from the war department in payment of claims for the transportation of American soldiers to France on British vessels it was learned today.

The amount is understood to be in the neighborhood of \$25,000,000. The original figure which covered the transportation charges for more than a million American troops was approximately \$105,000,000 but was reduced to its present proportions by a number of advance payments.

General Connor will render his report to Secretary of War Weeks immediately and the secretary is expected to turn the matter over to the treasury department without delay. Sir Ernest Baeburn, having successfully concluded his mission, is returning to London.

War department funds for payment of this obligation are said to be available until June 30, or the end of the present fiscal year, though information is lacking as to whether payment will be made in cash, or the amount charged off against the \$5,000,000,000 which Great Britain owes to the United States.

Moscow, March 3.—via Reval and Berlin, March 6.—Nicolai Lenine in a speech to the Moscow soviet today upon the disorders which have been reported from various quarters discounted them and attributed them to the shortage of fuel.

IRISH MAYOR IS SHOT TO DEATH WHILE IN BED

Ex-Mayor Of Limerick
Also Murdered Early
Monday.

WIFE FATALY HURT

Black and Tans Are Held
Responsible For
Outrages.

Dublin, March 7.—George Clancy, mayor of Limerick and councillor Michael O'Callaghan, former mayor of Limerick, were both shot to death in their homes at Limerick early today.

Clancy was attacked in his bed at 1:30 o'clock by a band of armed men who had broken into his home. His wife was badly wounded trying to defend him. She died later.

Owing to the military curfew it was two hours before a physician could reach the Clancy home. The conditions were similar to the murder of Lord Mayor McCurtain at Cork a year ago.

Both Clancy and O'Callaghan were Sinn Feiners as was McCurtain. Both were dragged from their beds. As the attackers began firing at Clancy Mrs. Clancy threw her own body before her husband. One of the bullets intended for the mayor struck her.

Clancy was the fourth mayor to be murdered in office. Sinn Feiners both here and at Limerick attribute his death to the Black and Tans.

O'Callaghan was a wealthy manufacturer. Mrs. O'Callaghan's wife fought desperately in an effort to save him and was badly hurt.

The bodies of both Clancy and O'Callaghan were riddled with bullets.

News of the later murders was later received from Limerick. The victim was a young man named O'Donovan. He was killed this morning.

Indemnity Conference Ends In Rupture—Allies Notify
Germany That Paris Decisions Will Be Enforced
Immediately.

SIMONS REFUSES TO CHANGE PLANS

British and French Cavalry Will Be On Move Early
Tuesday Is Word From Allied Headquarters at Cologne.

Cologne, March 7.—Allied headquarters for the command of an advance into Germany to compel the Germans to meet the allied indemnity terms have been established here. It was established that British and French cavalry would be on the move at dawn tomorrow.

London, March 7.—Premier Lloyd George announced this afternoon when the indemnity conference reconvened that the allies being dissatisfied with the counter proposals made so far by the Germans, had decided to put the penalties into effect at once to compel German obedience to the allied reparations decisions.

"I regret to state on behalf of the allies that not only are the German proposals inadequate but despite the interval since our last meeting there is not sufficient advance in the negotiations to justify postponing the sanctions (penalties) any longer," said the British premier.

The Belgian delegation informed the Belgian newspaper correspondents that the conference had broken up and that the allies will put the sanctions into effect at once.

Dr. Simons, German foreign minister and head of the German delegation, outlined the German case.

He began by saying that he could not accept the Paris indemnity decisions the allies in their entirety.

"Because of differences of opinion and the difficulties of our own government we have abandoned the idea of presenting a new plan," said the German foreign minister.

"Even the allies experts cannot foresee the final total of the amount Germany is being called upon to pay. It would be impossible to forecast the final total until five years have elapsed. Therefore we stand ready to do what we can to meet the Paris figures for a period of five years. But if this is to be done we must have a loan. Upper Silesia must remain German."

The restrictions upon our world commerce must be abolished."

Premier Lloyd George as spokesman for the allies, replied to Dr. Simons:

"Although there is no doubt what the answer will be, owing to the gravity of the situation, we are prepared to give a reasonable answer at St. James palace this afternoon," said the premier.

The allied statesmen went into session at Lancaster house at noon after a conference at Premier Lloyd George's official residence at 19 Downing Street. "The Germans had been playing for further delay and were hopeful during the morning that a final decision would be postponed until Germany could produce testimony from experts."

Receive Communication

Before their departure for Lancaster house from the Savoy hotel the Germans received a communication from Downing street which, they declared, caused them to enter the meeting with more hope than they otherwise would have had.

There were persistent reports in the air on the eve of the meeting that the allies had agreed upon new terms to lessen the German burden. The Daily Telegraph made a forecast that the allies demand 108,000,000 gold marks indemnity instead of 225,000,000,000 but that the export tax would be increased to 30 percent.

The crowds around Lancaster house grew to such proportions that special squads of police had to be called out to handle them. The people cheered loudly when Premier Lloyd George and former Chancellor of the exchequer, A. Bonar Law, appeared, having walked from 10 Downing Street. The crowds were silent as the Germans approached. Marshal Foch was one of the first to depart. He hastened out and jumped into a waiting motor car.

The conference adjourned at 1:30 o'clock. It was summoned to meet again at 4:30. On account of a levee the statesmen could not use St. James palace for the noon meeting, but it was selected as the seat of the 4:30 conference.

SPORTS

DELAWARE PROVES NEMESIS OF XENIA IN STATE TOURNEY

After winning four straight games in the big inter-scholastic basketball tournament at Ohio Wesleyan University, Delaware and thereby setting a high water mark for Central High basketball teams of the future, the local quintet succumbed to Delaware High 13-10 in the fifth round Saturday afternoon and was eliminated from further play.

The result was a keen disappointment to local fans who had followed the fortunes of Coach Conner's proteges through the four previous contests and wished for the success of getting into the final games of the preliminary Saturday night with Stivers.

It was openly expressed here, that the blue and white quintet would defeat the Dayton team in a brush with them Saturday night. Stivers defeated Delaware 12-6 Saturday night and with Steele of Dayton, goes back next Friday to represent the Southern Division in the semi-finals and finals of the big meet.

Xenia's career in the meet this year, was one, however, to inspire admiration from fans in this city. A team entering the meet is handicapped by the strange floor, the short time played only 12 1-2 minutes halves being permitted, and the general strain of the tourney which tends to reduce the morale of a team, and often shatters the best combinations.

Xenia met Chillicothe Friday morning in the first game, and was unfortunate enough never to have a rest all the time it was in the meet. Stivers on the other hand, although winning the Southern Division laurels in Company with Steele, played no more games than did the locals. Steele, like Xenia however, was forced to win six games to come out on top.

The first half of the Xenia-Chillicothe game ended with the Ross county team in a comfortable lead, which was cut down in the second half, the locals coming out on top. The Urbana Rural team met by the locals in the afternoon threw a scare into the local camp, the blue and white team finally winning 13-8. Hillsboro in the night game Friday, fought the locals in the best of form, and they won 20-0. The Highland county outfit, had two chances to score from the free line but failed. Xenia won the Yellow Springs game Saturday morning in the second half, the score at the end of the first period standing 6-5 in favor of the Yellow Springs lads. In the afternoon Xenia was eliminated because of its inability to shoot fouts, although the locals distinctly outplayed Delaware in the second half.

Throughout the play of the local team, the performance of Boxwell, who will be the only regular left over for next year's team, was the shining light of the local offense and defense. This lad got his bearings in the first game and instead of being stage-struck as is often the case in the tournament games he played even better than usual, and helped much to put the locals on their feet. His dribbling and shooting classed him as all Ohio material. Captain LeSourd also played well after he got his bearings and made nine of Xenia's ten points in the final game with Delaware.

The first half of the Chillicothe game, the opener for the locals ended with the score 10-8, in favor of Chillicothe. The lineup and summary:

Xenia (22) Chillicothe (14)

Saturday morning found two Greene County teams battling each other, with Xenia and Yellow Springs taking the floor. The locals won the game in the second half. The lineup and summary:

Although LeSourd attempted three free shots and Moore two in the first half of the Delaware game in the afternoon, the locals were unable to score a point in that period, the half ending with the score 4-0.

The blue and white lads were not playing their real game and were farther below standard in this contest than in the previous games. In the second period Captain LeSourd seemed the only local player who could hit the net with any frequency and he added four field goals. The lineup and summary:

Xenia (10) Delaware (13)

INGROWN TOE NAIL TURNS OUT ITSELF

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night. "Outgro" is a harmless, antiseptic manufactured for chiropodists. How ever, anyone can buy from the drug store a tiny bottle containing directions.

CARD OF THANKS

We wish to thank the many friends and neighbors who so kindly assisted us in the sickness and death of our loved one Florence Marie Hull also those who donated flowers and the undertaker Mr. McClain for the efficient manner in which he conducted the funeral. She leaves to mourn her loss one sister and her faithful mother.

Mrs. Sadie Franks.
Mrs. Mattie Hull.

A. C. Billman of Indiana, who says Tanlac is unquestionably the greatest medicine he ever heard of. "It put me back on my feet after I had practically given up all hope of ever being well again," he states.

"Tanlac is unquestionably the greatest medicine I ever heard of. After I had practically given up all hope of ever being well again, it put me right back on my feet, and I am feeling one hundred per cent better than I have for twenty years. I have gained ten pounds in weight, and every one says I don't look like the same person."

"For several months I suffered from a serious stomach disorder. I had no appetite and couldn't eat enough to keep up my strength. Very often when I sat down to a meal I would leave the table without touching anything scarcely as I could not bear the sight of food, much less eat it."

"I was losing in weight and my friends would often ask me: 'What is wrong with you? Why are you looking so thin?'"

"I also suffered terribly with pains across the small of my back and over my kidneys. It was almost impossible for me to get out of bed in the morning, as my back would pain me so I would almost fall over when I would first stand up in the morning. At night by back pains me so it was almost impossible for me to sleep. I would lie first on one side and then on the other, and would roll and toss all night long. I had almost given up and thought maybe my age was against me, as I had taken so many different kinds of medicine without results."

"The first bottle of Tanlac didn't help me much, but I made up my mind to give it a fair trial. After starting on the second bottle I began to feel better. My appetite returned and it just looked like I could hardly wait for meal time to come. In fact, I was hungry all the time."

"My back and kidneys don't bother me any more, and I can sleep like a log now. Tanlac has just simply made a new man of me, and any one living in this county can tell you the same thing, as everybody knows me and knows the shape I was in."

The above statement was made recently by A. C. Billman of Ligonier, Ind. Mr. Billman, has lived in Noble County all his life and is well-known and highly-respected citizen of that county.

Tanlac is sold in Xenia by Sayre & Hemphill, in Yellow Springs by A. Finley, Bowersville, N. K. Bower, M. E. Church of Clifton, Friday afternoon at 1:30 o'clock. Burial was made at Clifton.

BUSINESS CANNOT PROSPER NOR DINNERS PAID IF TRANSPORTATION SYSTEMS OF NATION BE PARALYZED.

By B. C. FORBES.

One day everything looks rosy; the next everything looks blue. We're a mercurial lot, aren't we?

Not so long ago, when the Esch-Cummins railroad law was passed, everybody became exuberantly enthusiastic over the railroad outlook. At last, after many trials and tribulations, the railroads were to come into their own. Today there is just as much pessimism over the railroad outlook as there was optimism when the Esch-Cummins law was passed.

Ponder these facts, which have been prepared for this column by a very able authority, who is not in any way connected with the railroads.

"The traffic of the New York Central, a road with a larger income and a more diversified traffic than any other in the world, except the Pennsylvania, in December slightly exceeded \$1,000,000 a day, including Sundays. With the new and high rates, this was much the largest gross income that the road ever earned—more than \$4,000,000 above any previous December. But for every dollar taken in from freight, passenger and miscellaneous sources about \$1.03 was spent for operating expenses and taxes alone. The actual deficit, after taxes, in one month was \$831,375.

"Elisha Lee, vice president of the Pennsylvania Railroad, addressing the Cleveland Chamber of Commerce, said that the Pennsylvania lost a quarter of a million dollars a day during January. That its income from all sources, freight and passengers, was \$1,920,000 a day, and its actual expenses \$2,180,000 a day; and that there are now 85,000 idle freight cars on the side tracks of the Pennsylvania system alone, representing 30 1/2 per cent of its entire equipment.

"Take the New England roads, all systems. They are not now earning 3 per cent on cost. They are paying out \$174,000,000 a year for operating expenses and labor. They have raised their rates so high that motor trucks are taking away their business. Freight and passenger rates have been increased by nearly 80 per cent since 1914, the cost of service is killing the traffic, and the cost of labor, coal and shop repairs is killing the service. Rates cannot be put higher, even if the law permitted, because any increase would decrease traffic faster than it increased income.

"The present basis of operation of the railroads is fundamentally unsound and cannot long continue. Railroads cannot maintain their freight traffic—which constitutes approximately 70 per cent of their income, and especially their highly profitable short-haul business—at the present high freight rates, increased first 10, then 15, then 35 per cent or more, since the war. Some rates, not necessarily all, will have to be lowered. And the uniform wage scale—by which even flagmen at railroad crossings throughout the United States, some of whom have to wave a flag for only six or seven trains a day, nevertheless receive overtime pay for more than eight hours—is fundamentally unsound and will have to be changed.

"To find the remedy for what may justly be called the railroad crisis requires the best brains in America. It must be dealt with as a national problem, just as important to labor as it is to capitalists and shippers. It must be dealt with on the basis of facts, without prejudice or favor, for or against any theory of private ownership or government ownership.

"The present railroad situation is as perilous for labor as for capital. In bad times labor always suffers more acutely than capital."

WHAT BELL HAD TO SAY.

Alexander Graham Bell, father of the telephone, has been visiting Britain and was asked his opinion of the British telephone system by the London Times, which recently exposed its deficiencies without mercy. Being a visitor, he wanted to let John Bull down easy, but that only adds force to what he said, which is:

"I think you do very well, but you do not compare with the United States, and I think recent history in the United States reveals the cause. We had the best system of telephony in the world before the war in the United States. Then we came into the war, the telephone was taken out of the hands of private companies and run by the government. Immediately the efficiency of the service fell. Now the control has been returned to the companies, and I hope the efficiency will improve. The decrease in efficiency in consequence of government ownership is found elsewhere."

THE SAFE COURSE.

I haven't sandbagged any man, or kidnapped anybody's child; I've followed up my old time plan when all the world was running wild. I haven't swiped a Henry car, or gathered in illegal spoil; but I have picked in a jar the small rewards of honest toil. I pity men who rob and slay, who will not like good scouts behave; they never have a decent day between the cradle and the grave. There's no use talking, life's a frost unless we dodge all sin with skill; our breaks are made at frightful cost, and every man must pay his bill. We can't be happy or serene as through this world of ours we go, unless our records are as clean as is the well known driven snow. Oh, some for long may dodge the cops, and carry on a course of crime, but when we sin all comfort stops, we cease to have a bolli time. We have no joy, no peace of mind, our nerves are racked, our hearts are sore; avengers seem to walk behind, and retribution stalks before. I pity those who cheat and steal or slug a stranger for his roll; their lives are bleak, they never feel the peace that warms the white man's soul.

The Pan-Handle railroad will make application to the city council at the next meeting of that body asking the privilege of putting down six additional switches at the Wilmington pike crossing. The Pan-Handle is finding it necessary to enlarge its yards in this city and this is the first step in that direction.

An improvement is to be made at the Pan-Handle depot by taking up the old plank walks and putting down a brick platform in the space east of the telegraph building.

The new heating station for the court house which is being erected in the rear of the sheriff's residence is beginning to loom up. SIR EDWIN LANDSEER

March 7, 1892

One of the most famous painters of the last century was Sir Edwin Henry Landseer who was born in London in 1802. His father was a well-known engraver and his mother posed for Sir Joshua Reynolds as the reaper with a sheaf of corn on her head. In Reynolds' picture, "The Gleaners," which has been so widely copied, that everyone is familiar with it.

Edwin Landseer began his artistic education under his father so successfully, that in his fifth year he drew very well indeed. Childhood pictures of his have been preserved in the South Kensington museum. At 13, pictures of his were accepted by the Royal Academy. By this time it was evident he would become a famous artist. He worked hard at everything that would increase his skill. He studied not only painting, but he dissected the carcasses of dead animals. Following in this, the example of Leonardo da Vinci, who said this was the only way to learn anatomy well enough to draw it.

Landseer's animal pictures brought him immediate fame. They have been so widely copied, that everyone is familiar with them, particularly with "The Stag at Bay" and "Alexander and Diogenes." He did the four famous lions for the Nelson monument in Trafalgar Square. These were almost his last work.

He died a few years afterward, when he was 71 years old.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

PLAN INCOME TAX PAYMENTS BY STAMPS IN ENGLAND

London.—Payment of income tax in installments by means of stamps is the suggestion which is being made to the Chancellor of the Exchequer by the Middle Classes Union.

It is pointed out, in a letter sent by the Union to the Chancellor, that a very practical difficulty is at present being experienced by many thousands of persons in meeting the income tax payments yearly and half yearly.

It is therefore proposed that stamps be issued to the amount of five and ten shillings and cards be issued on which these stamps could be affixed.

It is pointed out, in the petition, that the Government would gain by getting the taxes earlier than

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or \$1.00 for large size, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

In skin troubles, ordinary soaps are irritating and liable to aggravate the condition. Use Zemo soap. It is antiseptic soothing and hastens the process of healing.

MANICURE DIRECTIONS

In answer to S. J. and several other readers who have written for the information, I would like to make a few suggestions about the best methods of manicuring.

First of all, learn to take care of your hands so they do not need an elaborate manicure more than once every week or so. You probably

the good appearance of the nails depends greatly upon the way the cuticle is kept, and this method will give a smooth finish to the nail and will do much to prevent hang nails.

The next important thing is the shape of the ends of the nails. I think every day by going over them with a strip of pumice board. This will keep them from getting too long and will always give that fresh appearance that follows a professional manicure.

The third most important thing is the polishing of the nails. A good polish will cover up a multitude of manicuring defects, although you should not depend upon a high polish to cover up unsightly nails. Polishing is very good for the nails because it stimulates the circulation of the blood around the finger tips. Some manicurists even say that a good daily buffing of the nails will help to ward off the unsightly ridges that are a sign of age.

Another good thing to remember is that the nails need a certain amount of artificial nourishment, especially if you do manual work. Both olive oil and cocoa butter are very good to rub into each nail.

Curly Head—As it is easier to prevent freckles than to cure them, the best advice I can give you is to rub your skin full of cold cream and to use quite a little powder before going out into the wind and sun.

A. J.—Many of my readers have found that a daily massage of the bust with a piece of ice is an excellent method of reduction.

Mildred W.—I think that if you will treatment by using hot and cold water give your skin a daily invigorating will disappear. If they do not after and by massaging, those little marks a year or so, consult a skin specialist.

SICKNESS THIS TIME OF YEAR

Make Sure Your Blood is Rich and Red—in Fighting Trim

TAKE GUDE'S PEPTO-MANGAN NOW

If You Tire Easily and Feel Run Down, You Need the Best Blood Tonic You Can Get. Which is Gude's Pepto-Mangan

All over the United States the health of the people is guarded carefully by Boards of Health. Everything is being done with untiring effort, to prevent the spread of infectious diseases. And yet with all that care and watchfulness a disease sometimes breaks out in a family, and spreads from home to home. One can never tell when an epidemic will break out.

There is one safeguard that is preached by all physicians. That is to keep in good physical condition—to keep vigorous and in good health. Gude's Pepto-Mangan builds up the blood by increasing the number of red corpuscles. That is what makes blood rich and red. When your blood has plenty of red corpuscles, it is able to fight disease germs and carry them off.

If you do not feel right (and you know better than anyone else about that) start today and take Gude's Pepto-Mangan. Keep on taking it for a while and notice how much better you feel. Gude's Pepto-Mangan is put up in both liquid and tablet form and is sold by druggists everywhere. The liquid is more palatable, but the tablets are more medicinal value. Buy whichever you prefer, and be sure it is genuine "Gude's Pepto-Mangan." The name "Gude's" is on the package. Advertisement.

Skin Sufferers Do Not Want Mere Temporary Relief

Of course, if you are content to have only temporary relief from the terrifying itching and burning of fiery, flaming skin diseases, then you are satisfied to remain a slave to ointments, lotions and other local remedies applied to the surface of the skin.

Real genuine relief from eczema, tetter, scaly eruptions or any other form of skin irritations cannot be expected until you free your blood of the germs which cause these distressing disorders. And for this purpose there is

no remedy that gives more satisfactory results than S.S.S., the fine old blood remedy that goes down to the source of every blood disorder and routs out the germs which cause the trouble.

S.S.S. is sold by all druggists. Begin taking it today, and if you will write a complete history of your case, our medical director will give you expert advice without charge. Address Chief Medical Adviser, 155 Swift Laboratory, Atlanta, Ga.

ARRANGEMENTS NEAR COMPLETION FOR A. L. PERFORMANCE

Charles Correll, of the Joe Ben Production Company of Chicago, arrived in this city Friday night, to complete the direction and staging of the "Jollies of 1921," the big minstrel and musical production to be given by local talent at the Opera House Monday and Tuesday nights for the benefit of Joseph P. Moody Post, No. 95 of the American Legion.

Mr. Correll will relieve L. L. Blanchette, who started the rehearsals here, and has directed the cast during the past week. Mr. Blanchette left here Saturday evening for Duluth, Minn., where he will immediately start the production of another show for his company. Mr. Correll will complete the direction of the local cast and will have charge of the presentation of the offering on Monday and Tuesday nights.

The big cast of 50 entertainers is now almost ready for the staging of the production, and will work off the kinks with a dress rehearsal Monday afternoon. The show opens with a scene at the winter home of John Webb, the interior, at Palm Beach, Fla., where he is entertaining a number of house guests, represented by the young men and women in the show. Sixteen girls and eight boys are in the chorus during the first part besides eight more comedienne in black face who composed the "Merry Minstrels." The feature of the opening will be the burlesque wedding, with which the scene closes.

The second act opens with "The Buffet Dinner on the Laughland Limited," with the blackface artists taking the part of the porters and waiters. The "Awkward Squad" is an amusing feature of this section of the entertainment, comprising the efforts of a blackface officer to teach his squad how not to soldier. "Longing," a singing novelty with a number of girls will take the place of the popular "Peachy" of last year's show. "The Fox Trot Ball," will be the next big hit of the entertainment, the girls appearing in elaborate and beautiful oriental costumes. "Songs of the Past" will be the concluding act of the mirth-making production.

Members of the cast are: John Webb, interior; end men: H. E. Kiernan, Roy C. Hayward, C. A. Minor, Fritz Haller, John Kiernan, Forest Hurley, Guy Toms and William Hupman. The sixteen girls are: Misses Dorothy Ledbetter, Frances Loyd, Anna Kester, Helen Ford, Mary McFadden, Dorothy Clark, Helen Hurley, Thelma Routzong, Lois Simison, Marjorie Clark, Doris Whittington, Helen Evans, Louise Keyes, Laura John, Helen Wike and Mrs. Lawrence Lane. The eight chorus men are Clarence Horen, Julian Keyes, Harold and Paul Whitt, Guy Pillsbury, Eugene Wead, Morton Cresswell and Lawrence Lane, while the eight other men in the circle chorus are Ernest Fries, Frank L. Johnson, Jacob Culp, James Leaver, Roy Ireland, Major Campbell, George Sugden and Raymond Horen.

PROTECTED FROM WIFE

Columbus, March 5.—When he told the court that Blanch, his wife, threatened to jab a poker in his eye and otherwise injure him and that going to his place of business, she threatened to tear off his clothes, Frank J. Mitchell was successful in getting Common Pleas Judge Scarlett to enjoin Mrs. Mitchell from interfering with her husband who has filed suit for divorce.

IN BED EIGHT MONTHS

Cause—Change of Life. How Lydia E. Pinkham's Vegetable Compound Got Me Up

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During the Change of Life I was in bed for eight months and had two good doctors treating me but they did me no good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. I had all kinds of bad spells, but they all left me. Now when I feel weak and nervous I take the Vegetable Compound and it always does me good. I wish all women would try it during the Change of Life for I know it will do them good. If you think it will induce some one to try the Vegetable Compound you may publish this letter."

—Mrs. A. KELLER, Afton, Tennessee.

Women from forty-five to fifty years of age should take warning from such symptoms as heat flashes, palpitation of the heart, smothering or fainting spells, or spots before the eyes, and prepare their system for this perfectly natural change by taking Lydia E. Pinkham's Vegetable Compound. It has helped many, many women through this trying period, just as it did Mrs. Keller.

FORM ATHLETIC ASSOCIATION IN GREENE COUNTY

For the purpose of regulating all athletic contests between High School teams in Greene County, a Greene County Athletic Association was formed at a meeting of county superintendents, teachers and players held with county Superintendent of schools H. C. Aultman Saturday morning.

The Association will be regulated by a committee consisting of John R. Beachem, Business Manager of the Xenia Public Schools, Harold Little Superintendent of Schools at Yellow Springs and W. R. Collins, Superintendent of the Ross township schools. This committee will go over the Ohio State Athletic Association rules and the present rules and regulations for Greene County athletics, and will revise these rules as a code for future athletic contests in the county.

Each school in the county entering the Greene County Athletic Association will be required to pay a fee, and all Xenia and Green County teams are eligible to enter. The purpose of the Association is to be oversee the games, encourage clean play and fair sport and to better the work of the schools, by providing something for students who wish to participate in athletics to work for. Apple Roll—Make a biscuit dough, place on top four or five sour apples, chop finely. Roll and place in a buttered pan or a casserole. Make a syrup by boiling together for five minutes or cup of sugar, one-half cup water, one-half teaspoon cinnamon or nutmeg. Pour half over roll, saving remainder to serve as sauce. Bake one-half hour in an uncovered pan, basting with syrup.

Apple Brown Betty—The equivalent of a small loaf of baker's bread, one quart sliced apples, one-quarter cup butter, one-quarter cup sugar, one lemon, nutmeg. Rub bread crumbs through a coarse strainer or a colander; melt butter and stir in lightly. Cover the bottom of a buttered pudding dish with crumbs; cover crumbs with half the apples, sprinkle with half the sugar and a few grains of nutmeg and half the lemon. Cover with crumbs and repeat the process, arranging a layer of crumbs on top. Bake forty minutes over a medium flame. Serve with cream and sugar.

Old-Fashioned Apple Dowdy—Pare and slice one quart sour apples as for apple pie. Place in a

deep pudding dish. Add sugar and spices. If fruit is not sour add juice of one lemon. Add one-half cup water. Cover with pie crust or a rich biscuit crust.

Bake several hours over a low flame. If crust seems to be getting hard cover with a wet cloth.

To Stretch Curtains—Fold the lace curtain double, lengthwise; then pin it on tightly stretched clothes lines with pins close together. Slip a clean pole inside the folded curtain. When dry and taken off the line it will look much neater than when put on the stretcher.

Darning—It is much easier to use a small embroidery hoop instead of a stocking darning.

Cleaning Enamelware—Sanded hand soap is excellent for cleaning enamelware. It is not nearly so harmful to the hands as scouring powder and is inexpensive.

Mix the dry ingredients; then work the fat in with the tips of fingers or cut it in thoroughly with a knife. With a knife mix the liquid and dry ingredients. The mixture is of proper consistency when it may be dropped from the spoon without spreading. Drop in oiled muffin tins. Bake in hot oven from twelve to fifteen minutes.

Date and Nut Pudding—One cup chopped dates, one cup chopped nuts, two egg yolks, one-half cup sugar, one teaspoon baking powder, two stiffly beaten egg whites. PANAMA READY TO REJECT U. S. WARNING NOTE

President Porras To Refer Communication To Assembly.

WHITE AWARD FEARED
Arms and Ammunition Being Received By Government.

Balboa, Panama, March 7.—President Porras, of Panama, announced that he would refer Secretary of State Hughes' warning note on the Panama-Costa Rica clash to the Panama national assembly this afternoon. The president said that he would abide by any decision reached by the national assembly. He expressed regret that Secretary Hughes made chief Justice White's territorial award the basis of mediation, pointing out that Panama had rejected the White decision seven years ago. It was understood that the national assembly would reject the American offer of mediation on the ground that the constitution of the republic recognized only the Loubet award and not the award of Chief Justice White.

Quantities of arms and ammunition are being received in Panama and the government will soon have about 500 well equipped soldiers at the Sixaola river, the scene of the disputed territory. There was no further word of hostilities but there were indications that the Panama might attack when their forces were strengthened.

President Porras said that Panama would accept any arbitration on the basis of the Loubet award but would continue to reject mediation along the lines of the White award. He suggested that the league of nations use its offices to end the dispute or that the United States and two South American powers join in bringing about an understanding between Panama and Costa Rica.

GUESTS AT HOTEL FLEE WHEN FIRE SWEEPS LAUNDRY

San Francisco, Cal., March 7.—Hundreds of guests at the fashionable St. Francis hotel were awakened early today when fire in the soap factory and laundry on the roof of the hotel caused damage amounting to probably \$750,000, and brought all the city's fire fighting apparatus to the scene.

There was no panic but the dull explosion which preceded the fire awakened nearly all and the frightened guests swarmed from their rooms in various states of night attire.

The fire was under control in about an hour.

BOY STEALS, BUT MERCY TEMPER COURT SENTENCE

Chicago, March 7.—Adolph Kalkabrenner, 19 years old, will pass seven weeks in jail instead of serving a term in the Federal Penitentiary, because Judge Kenesaw M. Landis' merciful justice with mercy, it became known. The boy is the son of a minister. He had stolen \$15 from the mails.

"I stole," said the boy, "to help my parents."

Rev. Adolph Kalkabrenner, pastor of the German Evangelical Church, Elmhurst, admitted the boy was compelled to help support the family.

ETHEL BARRYMORE TO LEAVE HUSBAND

New York, March 7.—Ethel Barrymore and her husband, Russell Griswold Colt, have decided upon a legal separation, it became known here last night.

Miss Barrymore, convalescing from rheumatic fever at the Flower Hospital, refused to affirm or deny the report that a separation is contemplated. Mr. Colt could not be located for an interview.

SOVIET RUSSIA TOTTERING AS LOYALTY OF ITS TROOPS WAVERS

London, March 7.—The bayonets of the red army were still upholding the authority of the Russian soviet against the anti-bolshevik insurgents, but the loyalty of the troops was reported to be wavering according to an Exchange Telegraph dispatch from Helsinki today. This dispatch quoted a Finnish courier who had just arrived from Petrograd as saying: "Extensive fires have broken out in Petrograd. The loyalty of the soviet troops is wavering. In Moscow armored cars are patrolling the streets and are using artillery against the striking workmen."

All soviet officials at Pskoff were killed by rebels.

IRISH MAYOR IS SHOT TO DEATH WHILE IN BED

Ex-Mayor Of Limerick Also Murdered Eearly Monday.

WIFE FATALY HURT
Black and Tans Are Held Responsible For Outrages.

Dublin, March 7.—George Clancy, mayor of Limerick and Councillor Michael O'Callaghan, former mayor of Limerick, were both shot to death in their homes at Limerick early today.

Clancy was attacked in his bed at 1:30 o'clock by a band of armed men who had broken into his home. His wife was badly wounded trying to defend him. She died later.

Owing to the military curfew it was two hours before a physician could reach the Clancy home. The conditions were similar to the murder of Lord Mayor McCurtain at Cork a year ago. Both Clancy and O'Callaghan were Sinn Feiners as was McCurtain. Both were dragged from their beds. As the attackers began firing at Clancy Mrs. Clancy threw her own body before her husband. One of the bullets intended for the mayor struck her.

Clancy was the fourth mayor to be murdered in office. Sinn Feiners both here and at Limerick attribute his death to the Black and Tans.

O'Callaghan was a wealthy manufacturer. Mrs. O'Callaghan, his wife fought desperately in an effort to save him and was badly hurt.

The bodies of both Clancy and O'Callaghan were riddled with bullets.

News of the later murder was later received from Limerick. The victim was a young man named O'Donovan. He was killed this morning.

DELAWARE PROVES NEMESIS OF XENIA IN STATE TOURNEY

After winning four straight games in the big inter-scholastic basketball tournament at Ohio Wesleyan University, Delaware and thereby setting a high water mark for Central High basketball teams of the future, the local quintet succumbed to Delaware High 19-10, in the fifth round Saturday afternoon and was eliminated from further play.

The result was a keen disappointment to local fans who had followed the fortunes of Coach Conner's proteges through the four previous contests and wished for them the success of getting into the final games of the preliminaries Saturday night with Stivers. It was openly expressed here that the blue and white quintet would defeat the Dayton team in a brush with them Saturday night. Stivers defeated Delaware 12-6 Saturday night and with Steele of Dayton, goes back next Friday to represent the Southern Division in the semi-finals and finals of the big meet.

Xenia's career in the meet this year, was one however, to inspire admiration from fans in this city. A team entering the meet is handicapped by the strange floor, the short time play, the 12 1-2 minute halves being permitted, and the general strain of the tourney which tends to reduce the morale of a team, and often shatters the best combinations.

Xenia met Chillicothe Friday morning in the first game, and was unfortunately enough never to have a rest all the time it was in the meet. Stivers on the other hand, although winning the Southern Division laurels in Company with Steele, played no more games than did this local team. Steele, like Xenia however was forced to win six games to come out on top.

The first half of the Xenia-Chillicothe game ended with the Ross county team in a comfortable lead, which was cut down in the second half, the locals coming out on top. The Urbana Rural team met by the locals in the afternoon threw a scare into the local camp the blue and white team finally winning 18-8. Hillsboro in the night game Friday, found the locals in the best of form, and they won 20-0. The Highland county outfit, had two chances to score from the free line but failed. Xenia won the Yellow Springs game Saturday morning in the second half, the score at the end of the first period standing 6-5 in favor of the Yellow Springs lads. In the afternoon, Xenia was eliminated because of its inability to shoot fouls, although the locals distinctly outplayed Delaware in the second half.

Throughout the play of the local team, the performance of Boxwell, who will be the only regular left over for next year's team, was the shining light of the local offense and defense. This lad got his bearings in the first game and instead of being stage-struck as is often the case in the tournament games he played even better than usual, and helped much to put the locals on their feet. His dribbling and shooting classed him as all Ohio material. Captain LeSourd also played well after he got his bearings and made nine of Xenia's ten points in the final game with Delaware.

The first half of the Chillicothe game, the opener for the locals ended with the score 10-8, in favor of Chillicothe. The lineup and summary:

Sunday morning found two Greene County teams battling each other, with Xenia and Yellow Springs taking the floor. The locals won the game in the second half. The lineup and summary:

Although LeSourd attempted three free shots and Moore two in the first half of the Delaware game in the afternoon, the locals were unable to score a point in that period, the half ending with the score 4-0.

The blue and white lads were not playing their real game and were farther below standard in this contest than in the previous games. In the second period Captain LeSourd seemed the only local player who could hit the net with any frequency and he added four field goals. The lineup and summary:

Xenia (10) Delaware (13)
HudsonH. Rutherford

INGROWN TOE NAIL TURNS OUT ITSELF

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night.

"Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

CARD OF THANKS

We wish to thank the many friends and neighbors who so kindly assisted us in the sickness and death of our loved one Florence Marie Hull also those who donated flowers and the undertaker Mr. McClain for the efficient manner in which he conducted the funeral. She leaves to mourn her loss one sister and her faithful mother.

Mrs. Sadie Franks.

Mrs. Mattie Hull.

A. C. Billman of Indiana, who says Tanlac is unquestionably the greatest medicine he ever heard of. "It put me back on my feet after I had practically given up all hope of ever being well again," he states.

"Tanlac is unquestionably the greatest medicine I ever heard of. After I had practically given up all hope of ever being well again, it put me right back on my feet, and I am feeling one hundred per cent better than I have for twenty years. I have gained ten pounds in weight and every one says I don't look like the same person."

"For several months I suffered from a serious stomach disorder. I had no appetite and couldn't eat enough to keep up my strength. Very often when I sat down to a meal I would leave the table without touching anything scarcely as I could not bear the sight of food, much less eat it."

"I was losing in weight and my friends would often ask me: 'What is wrong with you? Why are you looking so thin?'"

"I also suffered terribly with pains across the small of my back and over my kidneys. It was almost impossible for me to get out of bed in the morning, as my back would pain me so I would almost fall over when I would first stand up in the morning. At night by back pains me so it was almost impossible for me to sleep. I would lie first on one side and then on the other, and would roll and toss all night long. I had almost given up and thought maybe my age was against me, as I had taken so many different kinds of medicine without results."

"The first bottle of Tanlac didn't help me much, but I made up my mind to give it a fair trial. After starting on the second bottle I began to feel better. My appetite returned and it just looked like I could hardly wait for meal time to come. In fact, I was hungry all the time."

"My back and kidneys don't bother me any more and I can sleep like a log now. Tanlac has just simply made a new man of me, and any one living in this county can tell you the same thing, as everybody knows me and knows the shape I was in."

The above statement was made recently by A. C. Billman, of Ligonier, Ind. Mr. Billman, has lived in Noble County all his life and is well-known and highly-respected citizen of that county.

Tanlac is sold in Xenia by Sayre & Hemphill in Yellow Springs by A. Finley, Bowersville by N. K. Bowe, Fairfield, Paul P. Young, Osborn, C. J. Logsdon, New Burlington, W. C. Smith.

Funeral services for Phyllis Jane Mitchell, the year and nine month old daughter of Mr. and Mrs. David Mitchell of Clifton, were held at the M. E. Church of Clifton, Friday afternoon at 1:30 o'clock. Burial was made at Clifton.

TAKE UP PROBLEMS OF PUBLIC HEALTH NURSING AT MEETING

On Monday evening, February 28, the first active meeting of the Red Cross Nursing Committee was held, since the organization of that body, on February 8.

Mrs. W. O. Custis, chairman of the committee, who was in charge of the meeting, explained the policy of the organization, which, she explained, is to develop and aid in the organization of public health nursing over the entire territory of the Red Cross Chapter, and to co-operate wherever possible with the Federal, State, or local public health officials and bodies. The nursing activities, Mrs. Custis pointed out, shall always be conducted with the thought that in so far as they affect the public health, they constitute one phase of a very broad public problem.

With this end in view several activities were voted upon at the meeting, among which were, the weighing and measuring of school children to stimulate the interest, not only of the child but of the parent in establishing better health habits; the spread of health propaganda by slips furnished by Federal and State Departments of Health, which will be used in schools and public gatherings. The spread of health propaganda at social gatherings, and to present to these gatherings the need of Public Health work by citing every day conditions as they exist in our community.

The need of resuming the one phase of the work that had been temporarily discontinued, namely the assistance given parents in having defects remedied, was discussed. The committee will co-operate with Health Commissioners, R. H. Grube in examining school children.

The Nursing Committee met with the Executive Committee of the Red Cross at their March meeting and presented their plans which were accepted by the Executive Committee.

The Nursing Committee consists of the following: H. C. Aultman, county superintendent of schools; C. A. Waltz, superintendent of city schools; Mrs. D. D. Jones, Mrs. Howard Little, Mrs. M. L. Snodgrass, Mrs. George Hudson, secretary; Dr. B. R. McClellan, Dr. C. G. McPherson, Dr. R. Kent Finley, Dr. R. H. Grube, Mrs. H. L. Sayre, Mrs. W. O. Custis, chairman; Mrs. Walter Dean, Mrs. Robert Terrill, and Miss Helen Evers.

THE CITY EDITOR SAID TO THE YOUNG REPORTER

Three nights ago, Dr. Ord, the famous surgeon, was found dead in his laboratory with his back broken and not a mark on his body. The next night the DISTRICT ATTORNEY suffered a similar fate. Last night the same thing happened to one of the most prominent judges in the country. The city is panic-stricken. Thousands of people are fleeing. WE MUST HAVE THAT STORY "GO AND GET IT!"

The young reporter by dashing aeroplane, speeding express train, scooting seaplane and churning ocean liner, traced the great mystery. Through perilous ways and paths fraught with danger, fighting, struggling, battling, with air, water, man and beast he pursued the story and HE GOT IT! See the most astounding newspaper mystery ever pictured at the Bijou tonight and tomorrow.

BUSINESS CANNOT PROSPER NOR DINNER PAILS BE FILLED IF TRANSPORTATION SYSTEMS OF NATION BE PARALYZED.

By E. C. FORBES.

One day everything looks rosy; the next everything looks blue. We're a mercurial lot, aren't we?

Not so long ago, when the Esch-Cummins railroad law was passed, everybody became exuberantly enthusiastic over the railroad outlook. At last, after many trials and tribulations, the railroads were to come into their own. Today there is just as much pessimism over the railroad outlook as there was optimism when the Esch-Cummins law was passed.

Ponder these facts, which have been prepared for this column by a very able authority, who is not in any way connected with the railroads.

"The traffic of the New York Central, a road with a larger income and a more diversified traffic than any other in the world, except the Pennsylvania, in December slightly exceeded \$1,000,000 a day, including Sundays. With the new and high rates, this was such the largest gross income that the road ever earned—more than \$4,000,000 above any previous December. But for every dollar taken in from freight, passenger and miscellaneous sources about \$1.03 was spent for operating expenses and taxes alone. The actual deficit, after taxes, in one month was \$831,375.

"Elisha Lee, vice president of the Pennsylvania Railroad, addressing the Cleveland Chamber of Commerce, said that the Pennsylvania lost a quarter of a million dollars a day during January. That its income from all sources, freight and passengers, was \$1,920,000 a day, and its actual expenses \$2,180,000 a day; and that there are now 85,000 idle freight cars on the side tracks of the Pennsylvania system alone, representing 30 1/2 per cent of its entire equipment.

"Take the New England roads, all systems. They are not now earning 3 per cent on cost. They are paying out \$174,000,000 a year for operating expenses and labor. They have raised their rates so high that motor trucks are taking away their business. Freight and passenger rates have been increased by nearly 80 per cent since 1914, the cost of service is killing the traffic, and the cost of labor, coal and shop repairs is killing the service. Rates cannot be put higher, even if the law permitted, because any increase would decrease traffic faster than it increased income.

"The present basis of operation of the railroads is fundamentally unsound and cannot long continue. Railroads cannot maintain their freight traffic—which constitutes approximately 70 per cent of their income, and especially their highly profitable short-haul business—at the present high freight rates, increased first 10, then 15, then 35 per cent or more, since the war. Some rates, not necessarily all, will have to be lowered. And the uniform wage scale—by which even flagmen at railroad crossings throughout the United States, some of whom have to wave a flag for only six or seven trains a day, nevertheless receive overtime pay for more than eight hours—is fundamentally unsound and will have to be changed.

"To find the remedy for what may justly be called the railroad crisis requires the best brains in America. It must be dealt with as a national problem, just as important to labor as it is to capitalists and shippers. It must be dealt with on the basis of facts, without prejudice or favor, for or against any theory of private ownership or government ownership.

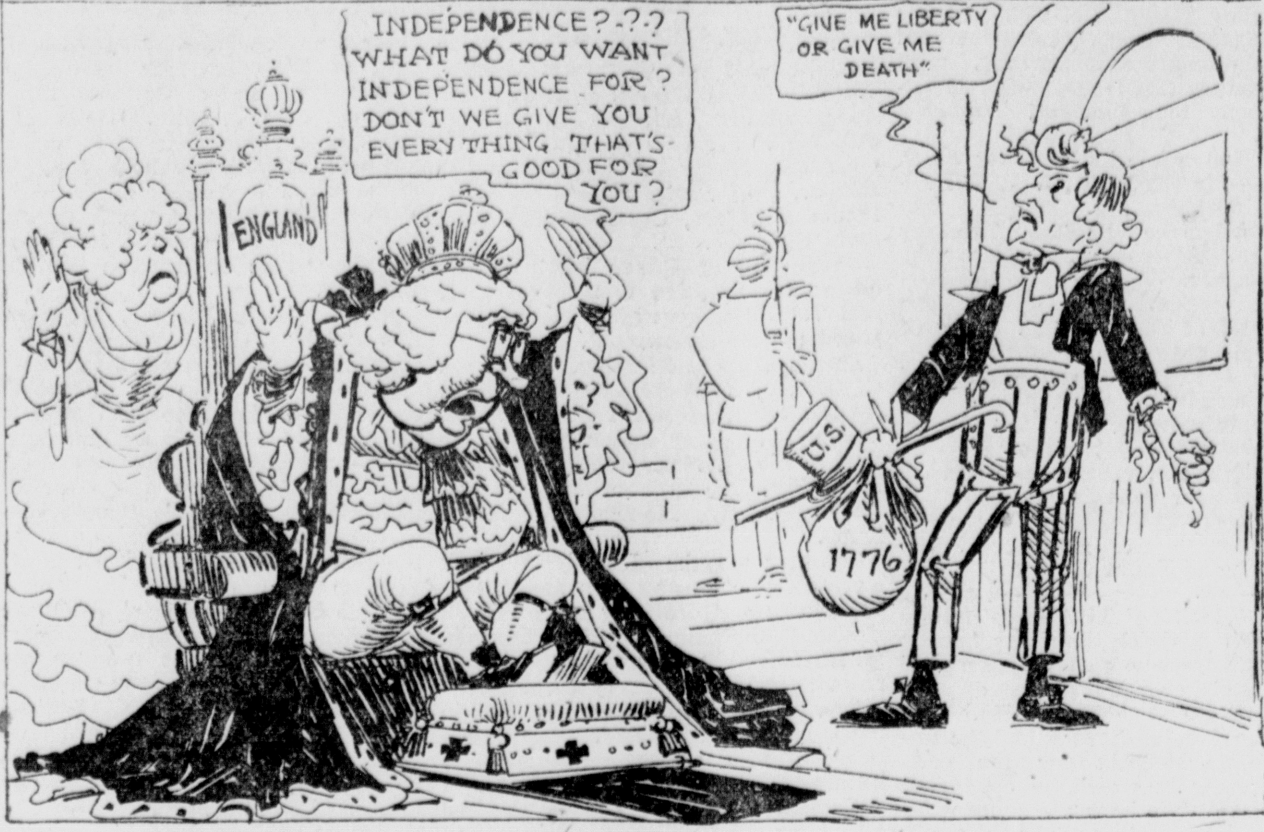

"The present railroad situation is as perilous for labor as for capital. In bad times labor always suffers more acutely than capital."

WHAT BELL HAD TO SAY.

Alexander Graham Bell, father of the telephone, has been visiting Britain and was asked his opinion of the British telephone system by the London Times, which recently exposed its deficiencies without mercy. Being a visitor, he wanted to let John Bull down easy, but that only adds force to what he said, which is:

"I think you do very well, but you do not compare with the United States, and I think recent history in the United States reveals the cause. We had the best system of telephony in the world before the war in the United States. Then we came into the war, the telephone was taken out of the hands of private companies and run by the government. Immediately the efficiency of the service fell. Now the control has been returned to the companies, and I hope the efficiency will improve. The decrease in efficiency in consequence of government ownership is found elsewhere."

WE SEEM TO HAVE FORGOTTEN SOMETHING IN THE LAST 150 YEARS

1901--Twenty Years Ago--1921

The Pan-Handle railroad will make application to the city council at the next meeting of that body asking the privilege of putting down six additional switches at the Wilmington pike crossings. The Pan-Handle is finding it necessary to enlarge its yards in this city and this is the first step in that direction.

An improvement is to be made at the Pan-Handle depot by taking up the old plank walks and putting down a brick platform in the space east of the telegraph buildings.

The new heating station for the

court house which is being erected in the rear of the sheriff's residence is beginning to loom up. The foundation has been completed and the walls are now rising rapidly giving promise of making quite a sightly building some of the bricks from the court house are being used for filling purposes in the building.

PLANT TO RESUME

Barnesville, March 5.—The H. L. Roby Cigar Company, whose plant was destroyed by fire last Saturday, with a loss estimated as high as \$400,000, will resume operations in another factory building here within two weeks. About 4,000,000 cigars were burned. The odor of the tobacco hung over the town two days.

Is It Yours?

SIR EDWIN LANDSEER

March 7, 1892

One of the most famous painters of the last century was Sir Edwin Henry Landseer who was born in London in 1802. His father was a well-known engraver and his mother posed for Sir Joshua Reynolds as the reaper with a sheaf of corn on her head. In Reynolds' picture, "The Gleaners," which has been so widely copied, that everyone is familiar with it.

Edwin Landseer began his artistic education under his father so successfully, that in his fifth year he drew very well indeed. Childhood pictures of his have been preserved in the South Kensington museum. At 13, pictures of his were accepted by the Royal Academy. By this time it was evident he would become a famous artist. He worked hard at everything that would increase his skill. He studied not only painting, but he dissected the carcasses of dead animals. Following in this, the example of Leonardo da Vinci, who said this was the only way to learn anatomy well enough to draw it.

Landseer's animal pictures brought him immediate fame. They have been so widely copied, that everyone is familiar with them, particularly with "The Stag at Bay" and "Alexander and Diogenes." He did the four famous lions for the Nelson monument in Trafalgar Square. These were almost his last work.

He died a few years afterward, when he was 71 years old.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

PLAN INCOME TAX PAYMENTS BY STAMPS IN ENGLAND

London.—Payment of income tax in installments by means of stamps is the suggestion which is being made to the Chancellor of the Exchequer by the Middle Classes Union.

It is pointed out, in a letter sent by the Union to the Chancellor, that a very practical difficulty is at present being experienced by many thousands of persons in meeting the income tax payments yearly and half yearly.

It is therefore proposed that stamps be issued to the amount of five and ten shillings and cards be issued on which these stamps could be affixed.

It is pointed out, in the petition, that the Government would gain by getting the taxes earlier than

BEAUTY CHATS

MANICURE DIRECTIONS
In answer to S. J. and several other readers who have written for the information, I would like to make a few suggestions about the best methods of manicuring.

First of all, learn to take care of your hands so they do not need an elaborate manicure more than once every week or so. You probably

the good appearance of the nails depends greatly upon the way the cuticle is kept, and this method will give a smooth finish to the nails and will do much to prevent hang nails.

The next important thing is the shape of the ends of the nails. I think every day by going over them with a strip of pumice board. This will keep them from getting too long and will always give that fresh appearance that follows a professional manicure.

The third most important thing is the polishing of the nails. A good polish will cover up a multitude of manicuring defects, although you should not depend upon a high polish to cover up unsightly nails. Polishing is very good for the nails because it stimulates the circulation of the blood around the finger tips. Some manicurists even say that a good daily buffing of the nails will help to ward off the unsightly ridges that are a sign of age.

Another good thing to remember is that the nails need a certain amount of artificial nourishment, especially if you do manual work. Both olive oil and cocoa butter are very good to rub into each nail.

Curly Head—As it is easier to prevent freckles than to cure them, the best advice I can give you is to rub your skin full of cold cream and to use quite a little powder before going out into the wind and sun.

A. J.—Many of my readers have found that a daily massage of the bust with a piece of ice is an excellent method of reduction.

Mildred W.—I think that if you will treatment by using hot and cold water give your skin a daily invigorating will disappear. If they do not after and by massaging, those little marks a year or so, consult a skin specialist.

"There's a Reason"

Prices Are Down Buy What You Need!

Don't buy rashly and foolishly for that would be to start the inflation all over again.

But buy the things you need—the things that will add to your comfort and enjoyment of life.

The bubble of profiteering has burst. Industry is getting back to normal. Prices in many lines have reached bottom.

If you want evidences of it read the advertising in this newspaper from day to day.

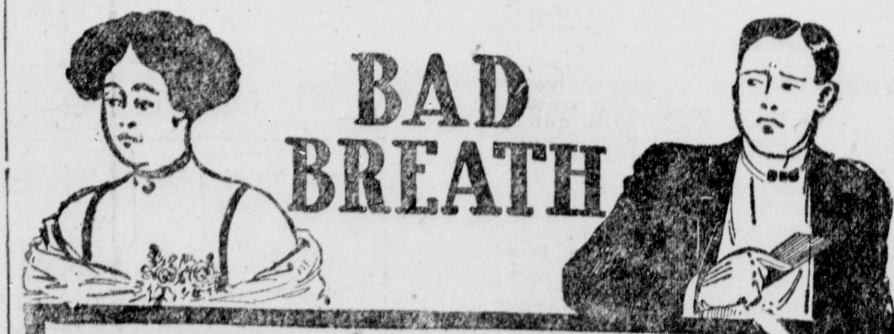

See the new prices that remind you of the "good old days."

You will find the newspaper advertising of the merchants and manufacturers very helpful just now. These advertisers deserve your support for they are the pioneers who are cutting through the forest of doubt and making a clean path to good times.

THE SAFE COURSE.

I haven't sandbagged any man, or kidnapped anybody's child; I've followed up my old time plan when all the world was running wild. I haven't swiped a Henry car, or gathered in illegal spoils; but I have pickled in a jar the small rewards of honest toil. I pity men who rob and slay, who will not like good scouts behave; they never have a decent day between the cradle and the grave. There's no use talking, life's a frost unless we dodge all sin with skill; our breaks are made at frightful cost, and every man must pay his bill. We can't be happy or serene as through this world of ours we go, unless our records are as clean as is the well known driven snow. Oh, some for long may dodge the cops, and carry on a course of crime, but when we sin all comfort stops, we cease to have a bully time. We have no joy, no peace of mind, our nerves are racked, our hearts are sore; avengers seem to walk behind, and retribution stalks before. I pity those who cheat and steal or slug a stranger for his roll; their lives are bleak, they never feel the peace that warms the white man's soul.

ARRANGEMENTS NEAR COMPLETION FOR A. L. PERFORMANCE

Charles Correll, of the Joe Bhen Production Company of Chicago, arrived in this city Friday night, to complete the direction and staging of the "Jollies of 1921," the big minstrel and musical production to be given by local talent at the Opera House Monday and Tuesday nights for the benefit of Joseph P. Foody Post, No. 95 of the American Legion.

Mr. Correll will relieve L. L. Blanchette, who started the rehearsals here, and has directed the cast during the past week. Mr. Blanchette left here Saturday evening for Duluth, Minn., where he will immediately start the production of another show for his company. Mr. Correll will complete the direction of the local cast and will have charge of the presentation of the offering on Monday and Tuesday nights.

The big cast of 50 entertainers is now almost ready for the staging of the production, and will work off the kinks with a dress rehearsal Monday afternoon. The show opens with a scene at the winter home of John Webb, the interior of which is a number of house guests, represented by the young men and women in the show. Sixteen girls and eight boys are in the chorus during the first part besides eight more comedienne in black face who composed the "Merry Minstrels." The feature of the opening will be the burlesque wedding, with which the scene closes.

The second act opens with "The Buffet Diner on the Laughland Limited," with the blackface artists taking the part of the porters and waiters. The "Awkward Squad" is an amusing feature of this section of the entertainment, comprising the efforts of a blackface officer to teach his squad how not to soldier. "Loving" a singing novelty with a number of girls will take the place of the popular "Peachy" of last year's show. "The Fox Trot Ball" will be the next big hit of the entertainment, the girls appearing in elaborate and beautiful oriental costumes. "Songs of the Past" will be the concluding act of the mirth-making production.

Members of the cast are: John Webb, interlocutor; end men: H. E. Kiernan, Roy C. Hayward, C. A. Minor, Fritz Haller, John Kiernan, Forest Hurley, Guy Toms and William Hupman. The sixteen girls are: Misses Dorothy Ledbetter, Frances Loyd, Anna Kester, Helen Ford, Mary McFadden, Dorothy Clark, Helen Hurley, Thelma Routzong, Lois Simison, Marjorie Clark, Doris Whittington, Helen Evans, Louise Keyes, Laura John, Helen Wike and Mrs. Lawrence Lane. The eight chorus men are: Clarence Wead, Morton Cresswell and Lawrence Lane, while the eight other men in the circle chorus are Ernest Fries, Frank L. Johnson, Jacob Culp, James Leahy, Roy Ireland, Major Campbell, George Sugden and Raymond Horen.

PROTECTED FROM WIFE

Columbus, March 5.—When he told the court that Blanch, his wife, threatened to jab a poker in his eye and otherwise injure him and that going to his place of business, she threatened to tear off his clothes, Frank J. Mitchell was successful in getting Common Pleas Judge Scarlett to enjoin Mrs. Mitchell from interfering with her husband who has filed suit for divorce.

IN BED EIGHT MONTHS

Cause—Change of Life. How Lydia E. Pinkham's Vegetable Compound Got Me Up

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During the Change of Life I was in bed for eight months and had two good doctors treating me but they did me no good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I

felt better. I had all kinds of bad spells, but they all left me. Now when I feel weak and nervous I take the Vegetable Compound and it always does me good. I wish all women would try it during the Change of Life for I know it will do them good. If you think it will induce some one to try the Vegetable Compound you may publish this letter."

—Mrs. A. KELLER, Afton, Tennessee. Women from forty-five to fifty years of age should take warning from such symptoms as heat flashes, palpitation of the heart, smothering or fainting spells, or spots before the eyes, and prepare their system for this perfectly natural change by taking Lydia E. Pinkham's Vegetable Compound. It has helped many, many women through this trying period, just as it did Mrs. Keller.

FORM ATHLETIC ASSOCIATION IN GREENE COUNTY

For the purpose of regulating all athletic contests between High School teams in Greene County, a Greene County Athletic Association was formed at a meeting of county superintendents teachers and players held with county Superintendent of schools H. C. Aultman Saturday morning.

The Association will be regulated by a committee consisting of John R. Beachem, Business Manager of the Xenia Public Schools, Harold Little Superintendent of Schools at Yellow Springs and W. R. Collins, Superintendent of the Ross township schools. This committee will go over the Ohio State Athletic Association rules and the present rules and regulations for Greene County athletics, and will revise these rules as a code for future athletic contests in the county.

Each school in the county entering the Greene County Athletic Association will be required to pay a fee, and all Xenia and Greene County teams are eligible to enter. The purpose of the Association is to be oversee the games, encourage clean play and fair sport and to better the work of the schools, by providing something for students who wish to participate in athletics to work for. APPLE PUDDINGS.

Apple Roll—Make a biscuit dough, place on top four or five sour apples, chop finely. Roll and place in a buttered pan or a casserole. Make a syrup by boiling together for five minutes one cup of sugar, one-half cup water, one-half teaspoon cinnamon or nutmeg. Pour half over roll, saving remainder to serve as sauce. Bake one-half hour in an uncovered pan, basting with sirup.

Apple Brown Betty—The equivalent of a small loaf of baker's bread, one quart sliced apples, one-quarter cup butter, one-quarter cup sugar, one lemon, nutmeg.

Rub bread crumbs through a coarse strainer or a colander; melt butter and stir in lightly. Cover the bottom of a buttered pudding dish with crumbs; cover crumbs with half of the apples, sprinkle with half the sugar and a few grains of nutmeg and half the lemon. Cover with crumbs and repeat the process, arranging a layer of crumbs on top. Bake forty minutes over a medium flame. Serve with cream and sugar.

Old-Fashioned Apple Dowdy—Pare and slice one quart sour apples as for apple pie. Place in a

deep pudding dish. Add sugar and spices. If fruit is not sour add juice of one lemon. Add one-half cup water. Cover with pie crust or a rich biscuit crust. Bake several hours over a low flame. If crust seems to be getting hard cover with a wet cloth.

DISCOVERIES.
To Stretch Curtains—Fold the lace curtain double, lengthwise; then pin it on tightly stretched clothes lines with pins close together. Slip a clean pole inside the folded curtain. When dry and taken off the line it will look much neater than when put on the stretcher.

Darning Hose—It is much easier to use a small embroidery hoop instead of a stocking darning.

Cleaning Enamelware—Sanded hand soap is excellent for cleaning enamelware. It is not nearly so harmful to the hands as scouring powder and is inexpensive.

TESTED RECIPES

Drop Biscuit—Two cups of flour, four teaspoons baking powder, one-half teaspoon salt, two tablespoons fat, three-quarters cup milk or water. Mix the dry ingredients; then work the fat in with the tips of fingers or cut in thoroughly with a knife. With a knife mix the liquid and dry ingredients. The mixture is of proper consistency when it may be dropped from the spoon without spreading. Drop in oiled muffin tins. Bake in hot oven from twelve to fifteen minutes.

Date and Nut Pudding—One cup chopped dates, one cup chopped nuts, two egg yolks, one-half cup sugar, one teaspoon baking powder, two stiffly beaten egg whites. Mix sugar and baking powder and add to egg yolks; then add nuts and dates and stiffly beaten egg whites. Spread in a shallow greased pan and bake in a slow oven for forty-five minutes.

will be required under the rules to maintain a certain standard of grades and there will also be regulations regarding the use of tobacco and profanity, the penalty for which will be ineligibility and suspension for certain periods. The rules to be adopted will govern other phases of athletics, in order to keep the inter-school athletics clean, and copies of these rules will be furnished all teams. The possibility of a county basketball league between the high schools of the county, with the fur-

ther possibility of a schedule of games, is not remote, and may be taken up by the newly appointed committee at its first meeting.

27 GAMBLERS SEIZED

Middletown, March 7.—Raiding two alleged gambling places here, police arrested 27 men, including proprietors of the alleged game.

THE WOMAN HE MARRIED

A CONTRETEMPS

My party promised to be a success. The guests had all accepted and what is more to the point had arrived. All but Juanita. She was invariably the last guest no matter what sort of a function she attended. I suspected her of doing this on purpose to make her entrance more theatrical.

It was only a little after nine, however, when she arrived. A little gasp of admiration went up when she appeared. Her gown of chiffon was made with several skirts, one over the other, from the deepest orange, her favorite color, to the faintest shade of yellow. She wore a gold bandeau confining her hair and a long floating scarf of deep orange fell from one shoulder. Her stockings and slippers matched her gown. As usual she wore no jewels.

No one could deny or question her beauty. My heart almost ceased beating when I saw the look in Dick's eyes when he greeted her. Junior was standing beside me, yet even so I could not restrain a sigh as I saw a look pass between them. I danced with Junior, while Dick took Juanita for a partner. Everyone was very gay, and my party bade fair to be a success. People wandered all over the house, admiring asking where I got this idea, that bit of color, or praising the ensemble. It was not my place as hostess, as well as designer of the decorations, to allow them to go unattended. I let them return to dancing, however, without me, pleading a wish to look after the supper.

The study was dark when I passed the door, save for a faint glow of the reading lamp, although I was sure that only a short time before it had been as brilliantly lighted as the rest of the house. Suddenly my heart stopped, and my ears fairly strained.

"You do love me, Nita darling. I know it!" I heard a husky voice, love softened, say.

There was a silence—a silence such as a woman might keep when she was uncertain, or when a word spoken would betray her heart and

her love. "Don't torture me, Nita! Say you love me. Then we will have the courage to end this horrible situation. I worship you, my beautiful girl. I can't live without you! Tonight you madden me!"

It is not pleasant for a wife to listen to a declaration of love from her husband to another woman. It is not made easier to hear it when her duties as hostess compel a smiling face and gay manner. I felt sick, faint. I remained for a moment rigidly by the study door, then quietly returned to my guests. I felt very lonely among that gay laughing crowd, and motioned Junior to my side. I took his hand in mine, and the touch of his warm strong fingers gave me courage.

"Where's Father?" he asked after a moment.

"I don't know. Somewhere about I guess."

"Last time I saw him he was talking to Aunt Nita. They didn't see me, so I didn't butt in. Better, look out, Mother, or Aunt Nita will steal Dad. He's hippy about her."

I knew that Junior was only joking, yet his careless boyish speech hurt me.

"You mustn't say such things, Junior. I know you are joking, but others might take you seriously, and it would hurt your Father."

Just then Juanita came into the room followed by Dick. She at once commenced to talk to Mr. Baker while Dick sought other guests.

But they both were flushed, and Juanita was plainly excited. "Don't let anyone know," I said to myself. "Keep up your courage, don't give way to your feelings," I felt unlike myself, as if I were masquerading. I laughed at nothing at all, was so gay that once or twice I caught Junior looking at me in amazement.

The supper gave me a little relief, as they were all too busy eating to notice that for a moment I slipped away. In my room I breathed a prayer for help, then returned and remained with my guests until they departed in the "wee sma' hours," declaring they never had enjoyed themselves more thoroughly.

Mr. Baker took Juanita home. I thought Dick looked disappointed when he offered, but he said nothing, and Juanita in her orange dress ravished him with a look as she accepted the invitation.

I went up with Junior and talked a few moments. Dick had gone directly to bed. Late as it was I was not at all sleepy, so I sat by my window and tried to think, to plan.

"I can't ignore it any longer," I whispered to myself. "It must not go any farther. I must find some way to win him back before it is too late."

"I will fight her with any weapons, but Dick must not know I am fighting," I said as I finally arose. (To Be Continued)
